Lonsdale 9-11mm Blue-Grey Roofing Slate

Lonsdale Blue-Grey Roofing Slate is a natural slate from Papagaios, Brazil. A very durable proven product that produces a very attractive variegated toned slate roof.

Our fixed length, random width solution is a great balance creating a natural random looking slate roof without the labours of a full random and diminishing roof.

Slates are up to 405mm wide included.

SPECIFICATION:

Fixed Length of 460mm x Random Widths 9-11mm thickness.

Widths: 250mm,305mm,355mm,405mm wide.

Sold per crate:

Crate Information:

Net 1.15 tonnes

Gross 1.19 tonnes

460mm long x random widths up to 405mm wide

9-11mm thick

Pre holed to a 85mm head lap.

Approx Slate No / Crate

460 x 405mm - 58 slates (+-)

460 x 355mm - 66 slates (+-)

460 x 305 - 78 slates (+-)

460 x 250 - 90 (+-)

Coverage is approx. 21m²/crate based on a 75mm head lap.

Tested to BS EN 12326-2: 2011 Lonsdale Blue-Grey passes all aspects of this test.

* Derived from the equation in BS EN 12326-1: Annex B whereby the nominal thickness is determined as a fraction of the bending strength (characteristic modulus of rupture) E&OE
